About The Workshop

Yuan Ze University, with its acclaimed research contribution in engineering and informatics, will host an online workshop in January 2021. Featuring a variety of course topics such as 5G, AI, and Smart Living, we invite students all around the globe to work together and explore the possibilities in the future world of IoT.

As long as you share with us your story of helping others, a US$100 registration fee will be waived, and you will gain eligibility for participation - for free. Participants that pass our evaluation will acquire a certificate of completion, or even more!

Now, don't hesitate to register via Google Forms by 27th December 2020. We look forward to meeting you online soon!

What is IoT?

Internet of Things (IoT) describes the network of physical objects— "things"—for the purpose of connecting and exchanging data with other devices and systems over the Internet. IoT digitalizes the real world. Its application includes logistics, industrial manufacturing, health care, smart home, etc.

Information & Registration

- **Event**: The 2021 YZU Smart Living x IoT Online Workshop
- **Date**: 11th - 21st January 2021
- **Time**: 15:00-18:00 (UTC+8), every day during the workshop
- **Organizer**: Global Affairs Office (GAO), Yuan Ze University (YZU)
- **Lecturer**: YZU Professors and lecturer in Mechanical, Electrical, and Communication Engineering
- **Course Content**: Classes will be conducted interactively, in real-time, and in English. You will work with students from different parts of the world and carry out IoT-related projects.
  - Innovative Thinking - IoT, Lect. Jeffrey Sebastian
  - Automation and Robotics, A.P. Chwan-Hsen Chen
  - A. I. and Machine Learning, Prof. Chih-Yang Lin
  - Smart Living and Gerontechnology, Prof. Yeh-Liang Hsu
  - 5G and Internet of Things, A.P. Sau-Mou Wu
  - Basic Mandarin
  - Taiwanese Culture Tour
- **Registration Form**: https://forms.gle/Uj3c4GCguNJbZ7YK7 (Also see QR Code on the right)
- **Registration Deadline**: 27th December 2020 (Sun)

Register Now

Note

- The workshop will be conducted in English. We suggest participants' English proficiency levels meet CEFR B2 or higher.
- To ensure teaching quality, participants should prepare a satisfactory internet and hardware environment by themselves.
